LED makes the difference

DYNAMIC LIGHTBOX

CONCEPT

We bring the visual to life, making it dynamic by adding **animation and movement**.

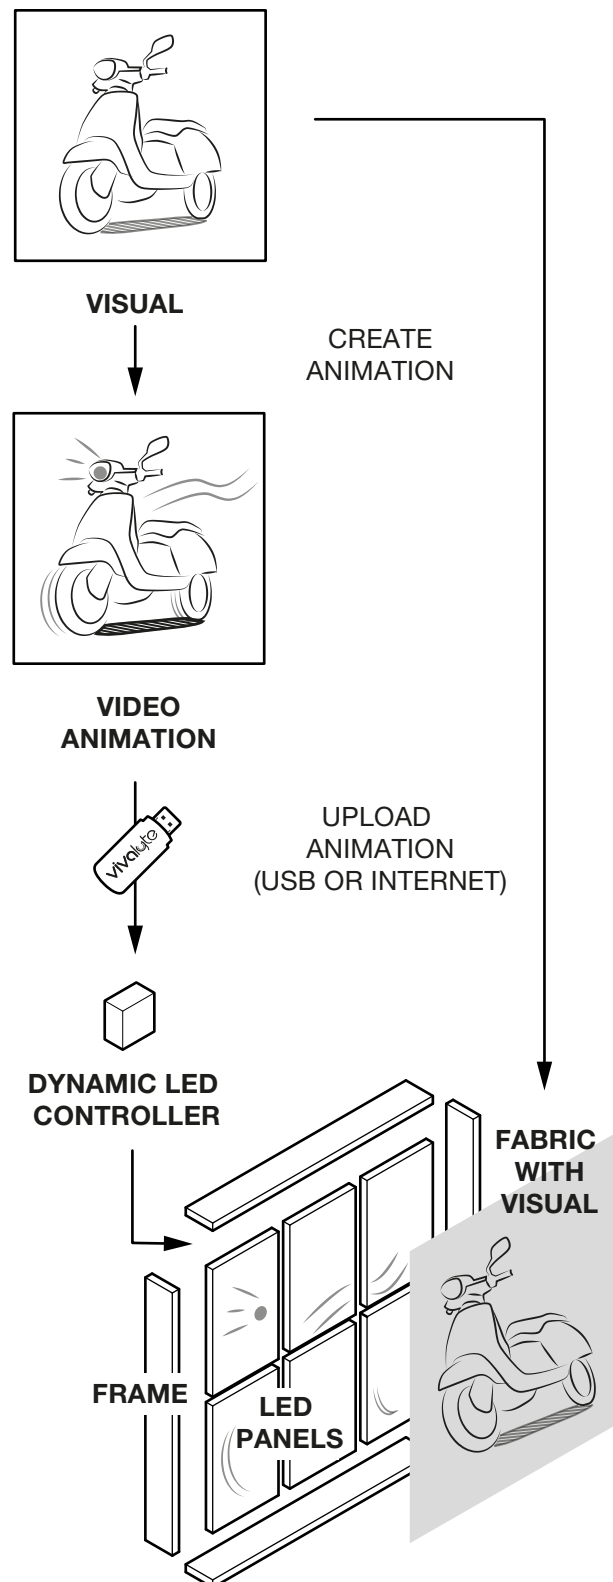

Combining **high resolution print** (single or multi layer) with **LED video animation**.

More powerful advertising, communication and branding thanks to:

- Stopping power
- Story telling capabilities
- Emotional involvement

Providing business value by:

- **Increased revenue and brand value**
- **Cost effective** solution, **one time hardware investment** and lifelong campaign
- **Continuity** by regular content refresh

NEW BUSINESS OPPORTUNITIES

- Increased revenue
- Repeat business
- Improved customer loyalty and retention
- New business model opportunities such as leasing, subscription and service offering
- Leadership and reputation for innovation

KEY BENEFITS

Easy to build by **modular design**

Easy and flexible print change and video upload

Integrated power management and data communication

Any print size available

Multi-layer capability

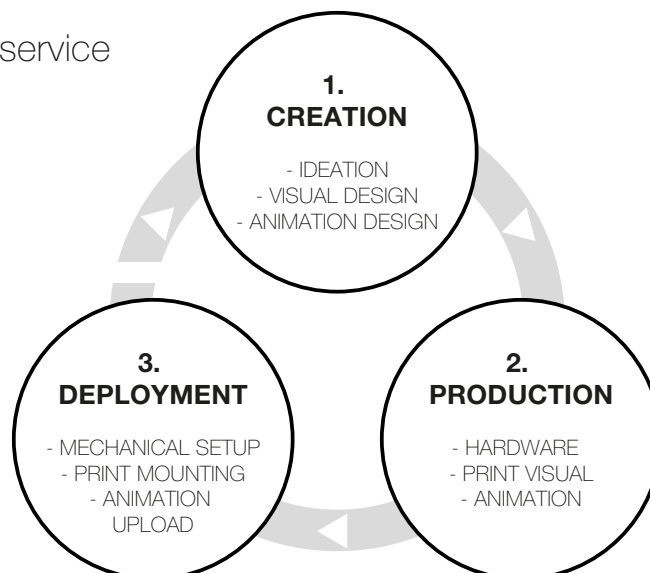

Day & night mode capability

Near **zero maintenance**

3 STEP PROCESS

Vivalyte offers you service and support for a successful roll-out.
